**Moorfields
Private**
Eye Hospital

At Moorfields Private, your vision is in the best possible hands

As part of the world-renowned Moorfields Eye Hospital NHS Foundation Trust, we offer you an unrivalled reputation, more than 200 years of pioneering research and an exceptional level of care from the most experienced surgeons using the most advanced equipment available on the market.

Over **2,000**
vision correction
procedures performed
every year

We have **11**
specialist vision
correction surgeons

We have **3**
state-of-the-art
refractive lasers in
our refractive suites

We offer impartial, expert advice and precision treatment from some of the leading ophthalmologists in the world. Their expertise means that we are frequently able to treat patients who have been turned away for vision correction from other providers.

WE OFFER THREE MAIN TYPES OF VISION CORRECTION:

Laser eye surgery

- including LASEK, SMILE, TransPRK and LASIK to correct short sight (myopia), long sight (hyperopia), and astigmatism.

Implantable contact lenses (ICL)

- highly effective vision correction and is suitable for patients with a very wide range of prescriptions.

Refractive lens exchange (RLE)

, or lens replacement surgery - a common vision correction procedure which involves replacing the natural lens inside the eye with a synthetic implant.

YOUR PERSONALISED TREATMENT PLAN

Your consultant will be with you each step of your journey. You will meet your surgeon at the initial consultation, and they will personally assess your eyes and provide a treatment plan. They will also conduct your surgery and follow up appointments.

YOUR CORPORATE OFFER

10%
discount

A 10% discount off standard refractive surgery pricing packages for laser eye surgery, implantable contact lenses (ICL) and refractive lens exchange (RLE) carried out at Moorfields Private Eye Hospital facilities in London.

The offer is exclusive to current employees of selected corporate organisations, and proof of employment is required.

Your suitability for laser eye surgery and other forms of vision correction will be determined by your expert consultant at Moorfields Private.

WHAT'S INCLUDED:

- A fixed 10% discount off standard laser eye and refractive surgery pricing packages which bundle the common fees associated with a procedure into one price.
- Package prices usually include: the most commonly required tests, hospital and consultant fees, take home medication, and one post-operative appointment. The package price provides a better value compared to paying for all the items individually.

WHAT'S NOT INCLUDED:

- The initial consultation fee is excluded from your corporate offer and will be charged at standard rates.
- Any items outside of the standard treatment package (such as premium lenses, or additional clinically required diagnostics) will be charged at standard rates.

Each package price will have specific inclusions and exclusions, and these will be explained to you at the point of booking.

YOUR OFFER FAQs

Is my employer part of this Preferential Rate Scheme?

Please check with your employer.

What proof of employment is accepted?

To verify you are a current employee of your organisation, you can provide us with either of the following at the point of booking:

- ✓ Your employee ID badge showing your name and your employer's name/logo
- ✓ A payslip from within the last 3 months, showing your name and employer's name

Can I use 0% finance?

You can combine this offer with 0% finance payment plans which we offer for refractive procedures via a 3rd party provider for eligible cases. You are able to apply for interest free payment plans for up to ten months, subject to a credit check and terms and conditions, including agreement from your consultant. No deposit is required.

Can I use my private health insurance with this offer?

No, it's only available for self-pay patients.

What if I'm not suitable for laser eye surgery?

At your consultation your eyes will be assessed thoroughly. If you're not suitable for laser vision correction, your surgeon may recommend an alternative treatment such as implantable contact lenses (ICL) or refractive lens exchange (RLE).

Can I choose a consultant?

You won't be able to choose a named consultant, but we will book you in with a consultant who specialises in vision correction.

If you wish to choose a named consultant, the package price and discount will not apply.

The consultant will provide you with a quotation.
